## Commercial program

### BEST SOLUTIONS

Our products have been designed to bring the best experience to sporting shooters and hunters in different environments and weather conditions. Our products have been tested across the world: Africa, Asia, Latin America, and Europe. Used in different environments, from the heat in the deserts to the wetlands of rain forests, in freezing conditions of the European Alps, Caucasus mountains and the Asian mountain passages.

### SOVEREIGN CAPABILITIES

We have implemented number of technology transfer projects to establish sovereign manufacturing capabilities for our clients globally. We have pool of experienced resources to deliver end-to-end solution for our clients, train local staff and enable long term manufacturing for our clients.

### SUPPORT SOLUTIONS

- ◆ IN COUNTRY SUPPORT
- ◆ LOGISTICS HUB IN AUSTRALIA
- ◆ PARTNERSHIP WITH THE AUSTRALIAN INDUSTRY
- ◆ DEDICATED SUPPORT CALL CENTRE
- ◆ WARRANTY MANAGEMENT

## excellent products for your needs

### SUPPORT SOLUTIONS

We have a pool of specialized experts and online resources to support your needs:

- ◆ Manage inquiries from your buyers.
- ◆ Provide in country technical support and sustainment.
- ◆ Provide relevant training.

### FROM PURCHASE TO MAINTENANCE A TOTAL END TO END SOLUTION.

### PRODUCT MANAGEMENT

We provide end-to-end Product Management solutions to enable our clients from gun industry, Defence and civilian law enforcement agencies to focus on their priorities.

### RAPID SOLUTIONS

We have experience in delivering rapid solutions for our clients in the need of sudden demand for deploying equipment for law enforcement and Defence.

Our dedicated staff will assist our clients in: defining their needs, scope the product list they need, deliver and support the product throughout the warranty. We provide end-to-end solution from manufacturing to delivery & warranty support in line with standards required.

We can offer wide range of:

- ◆ Pistols;
- ◆ Hunting Rifles;
- ◆ Sporting Rifles;

We also provide ammunition, ancillaries and optics for our products to increase soldiers' striking and lethality capabilities.

### CAPABILITY DEVELOPMENT

Our experts and engineering resources can develop unique capability for our clients in line with their specific needs and requirements. We can work with existing suppliers or independently and provide best-of-breed solutions for our clients.
